
50th Nordic Paediatric Cardiology Meeting, 28-30 September 2022, Gothenburg, Sweden

After a two year break due to the pandemic it is now our pleasure to invite you to the 50th Nordic Paediatric Cardiology Meeting to be held in Gothenburg 28-30 September this year! We certainly look forward to restarting the tradition of the Nordic Paediatric Cardiology Meeting which gives us the opportunity to meet in person and being able to discuss the many aspects of interest in paediatric cardiology and paediatric cardiac surgery, in a somewhat more informal way than at a larger international meeting.

Programme: We meet in the evening on Wednesday 28th of September, and there will be an introductory session 19.00-20.30. There will be a full programme on Thursday 29th and on Friday 30th til lunch. Nurses and allied professionals will have sessions in parallel, but some sessions will be shared by us all.

Sessions will include presentations and discussion of *right heart lesions* as well as *left heart obstructions* dealing with both catheter and surgical treatment options. Other sessions are *fetal cardiology*, as well as presentation about the important work being done in *supporting patients with congenital heart disease and their families* as well as the issue of *transition* of our patients to adult health care. Also, presentations of *ICD treatment in children* as well as *risk assessment in children with hypertrophic cardiomyopathy* will be included. A separate *free paper session* is also planned (send a short abstract to jan.sunnegardh@vgregion.se and ewa-lena.bratt@gu.se).

You will find the agenda in full on the [webpage](#).

Venue; The meeting venue is at the [Hotel Scandic Rubinen](#), Kungssportsavenyn 24, in the centre of Gothenburg.
